1. ABOUT THIS GUIDE

Objectives and target audience

This guide describes how to connect and configure the Skrill module on your Wix dashboard. It assumes that you have an existing Wix installation.

Conventions used in this guide

The table below lists the conventions used in this guide.

Table 1-1: List of conventions

Convention	Description
Code example	Used to illustrate example code, functions, and commands.
File path	Used to indicate a file path or folder structure.
Glossary	Glossary term
Menu1 > Menu option2 >	Indicates a menu path.

2. INTRODUCTION

What is the Wix eCommerce platform?

The Wix eCommerce platform provides businesses with all the professional tools and services they need to sell online and in-store. It allows merchants to build their eCommerce business and sell on multiple sales channels, including web and mobile storefronts, social media channels, online marketplaces, and physical retail locations, as well as manage and track everything with an advanced, integrated dashboard: from inventory, orders and fulfillment to payment and brand marketing.

Skrill's online payment solution called Quick Checkout was fully integrated into Wix. Connecting and configuring the Skrill Payment Solution module provides a simple, secure, and convenient option to accept payments with Skrill on the Wix eCommerce platform.

Skrill customers using Wix have access to a wide range of card and alternative payment methods.

Signing up for a Skrill account

Before you can start accepting payments through Skrill, you need to open a free merchant account by completing the online application form [here](#).

Once your application has been approved you can configure your Skrill credentials in your Skrill merchant account. Please follow the below steps:

- a. Sign in to your Skrill account once verified and go to "Settings" >> "Developer settings" >> "API / MQI / GSR / CVT Management" to create a Secret Word and API password.
- b. Insert them into the form along with your Merchant ID and Merchant E-Mail Address.
- c. Click the Connect My Account button on Wix dashboard. You will be then connected, and ready to accept payments with Skrill.

3. CONNECTING AND CONFIGURING WIX

Secret Word and API Password

It is mandatory to setup a secret word and API/MQI password for your Skrill merchant account before configuring the Skrill module. The secret word is used to authenticate the data sent back to your Wix server after payment. You must obtain the IP address of your Wix server to configure the API/MQI password. You can find this IP address by executing the following command from a command prompt:

```
ping <server domain name>
```

For example:

```
ping example.wixserver.com
```

```
Pinging example.wixserver.com [145.76.160.206] with 32 bytes of data:
```

Make a note of the set of numbers in the square brackets. This is the IP address. Now you have the IP address. You can setup the secret word and API/MQI password as follows:

1. Log in to your Skrill merchant account at www.skrill.com.
2. Go to **Settings >> Developer settings >> API / MQI / GSR / CVT Management (Figure 3-1)**.
3. Set API / MQI Password using the toggle, type and confirm by clicking Save.
4. For each section, specify the IP address(es) or IP address range of your Wix server. This prevents payment or money transfer requests from other IP addresses if your secret word or API password is compromised. All requests from other IP addresses are denied. Access can be granted to:
 - A single IP address (e.g., 145.76.160.206 using the example above).
 - Multiple IP addresses, separated by space (e.g., 192.168.0.2 10.0.0.2).
 - A subnet in CIDR notation (e.g., 192.168.0.0/24).
5. Set Secret Word using the toggle and click **Save** to confirm.

Note: Your Secret Word must contain at least: 8 characters, 1 uppercase letter, 1 lowercase letter, 1 number.

The screenshot displays the Skrill merchant account interface. The top navigation bar includes the Skrill logo, a 'DISPLAY TEST ACCOUNTS' toggle, and links for 'HELP', 'Email', 'Alerts', and the user 'Shweta Kale1'. The left sidebar contains navigation options: Home, Transfers, Banking, Balances, All Transactions, Settings (selected), Account Settings, Developer Settings (highlighted), Wallet Label Settings, Support, Notifications, and Merchant Information. The main content area shows 'Developer Settings' for 'CASINO-US' (ID: 309310256). Below this, there are tabs for 'Wallet IP Whitelisting', 'API / MQI / GSR / CVT Management' (selected), and 'API Documentation'. A table lists four wallet accounts: CASINO-US, BET365-BULGARIA, IBET420, and BetOnline-Asia. The 'API / MQI / GSR / CVT Management' section contains five toggle switches, all of which are turned on (Enabled): 'Automated Payment Interface (API) Enabled - 3 IP's Whitelisted', 'Merchant Query Interface (MQI) Enabled - 3 IP's Whitelisted', 'Gateway Secure Restriction (GSR) Enabled - 5 IP's Whitelisted', 'Set API / MQI Password Enabled', and 'Set Secret Word Enabled'.

The screenshot displays the Skrill Developer Settings page. At the top, there are tabs for different wallet accounts: CASINO-US (ID: 309310256), BET365-BULGARIA (ID: 308760226), IBET420 (ID: 308760194), and BetOnline-Asia (ID: 306279907). The 'Developer Settings : CASINO-US' section is active, showing three sub-sections: 'Wallet IP Whitelisting', 'API / MQI / GSR / CVT Management', and 'API Documentation'. The 'API / MQI / GSR / CVT Management' section is expanded, showing four configuration cards:

- Automated Payment Interface (API):** Enabled - 3 IP's Whitelisted. It allows requests to the API only from the following IP addresses: 8.8.8.8, 9.9.9.9, and 11.12.31.12.
- Merchant Query Interface (MQI):** Enabled - 3 IP's Whitelisted. It allows requests to the MQI only from the following IP addresses: 1.2.2.2, 5.6.3.2, and 12.1.2.3.
- Gateway Secure Restriction (GSR):** Enabled - 5 IP's Whitelisted. It allows gateway sessions to be generated only from the following IP addresses: 0.1.2.3, 10.150.250.185, 10.150.250.186, 3.5.4.3, and 1.2.3.5.
- Set API / MQI Password:** Enabled. It requires providing a current password, a new password, and a confirm password.
- Set Secret Word:** Enabled. It requires providing a new password and a confirm password.

Figure 3-1: Configuring a Secret Word and API/MQI Password

Configure Skrill on your Wix dashboard

The next stage is to configure the Skrill module. The steps are as follows:

1. Go to your Wix dashboard on desktop.
2. Select Settings.
3. Go to Accept Payments.

- Next to Skrill, click Manage.
- Insert your Skrill credentials (**Figure 3-2**).

Figure 3-2: Skrill Settings with example values in Wix dashboard

Configure Skrill Settings

Configure the Skrill Settings as follows:

- Enter your Skrill Merchant account ID in the Merchant ID field. This is the Customer ID of your merchant account.
- Enter the processing email your Skrill merchant account.
- Enter the API password and Secret word that you set up in the previous section.

Table 3-1: Skrill Settings

Field Name	Description	Format/ Example
Merchant ID	Your unique merchant identifier. This is the Customer ID of your merchant account.	58010731
Merchant Account (processing email)	The processing email address linked to your Skrill merchant account (created by you when you first signed up for a Skrill merchant account).	techpubs@skrill.com
MQI/API Password	The API password. This field is mandatory. It allows the Wix server to receive payment information.	N/A
Secret word	Enter the secret word configured for your Skrill account here. This feature is mandatory and ensures the integrity of the data posted back to your Wixservers.	N/A

4. CUSTOMER EXPERIENCE

This section describes the customer's checkout experience when using the Skrill module.

Note: We only describe the Checkout process from the payment selection step onwards as the previous steps are unchanged.

The steps are as follows:

1. Click a payment method from the list of available payment methods (this list depends on the customer's country, the payment options configured for your Skrill account, and the payment options configured in Skrill module.

3 Payment

 Your payment and personal details are encrypted and secure.

<input checked="" type="radio"/> Skrill Digital Wallet	
<input type="radio"/> Skrill Credit Card	
<input type="radio"/> Paysafecard	
<input type="radio"/> Paysafecash	
<input type="radio"/> Rapid Transfer
