## 1. About this guide

---

### Objectives and target audience

This guide describes how to install and configure the Skrill Shopify module. It assumes that you have an existing Shopify installation.

### Conventions used in this guide

The table below lists some of the conventions used in this guide.

**Table 1-1: List of conventions**

Convention	Description
Code example	Used to illustrate example code, functions and commands.
<i>File path</i>	Used to indicate a file path or folder structure.
<u>Glossary</u>	Glossary term
<b>Menu1 &gt; Menu option2 &gt;</b>	Indicates a menu path.

## 2. Introduction

---

### **What is the Shopify module?**

Shopify is an eCommerce platform, which provides online merchants with a shopping cart system.

Shopify has been integrated with Skrill's online payment solution called Quick Checkout. Installing and configuring the Skrill Payment Solution module provides a simple, secure and convenient option for connecting to Skrill's online payment processing platform via Shopify.

Skrill customers using Shopify have access to a wide range of card and alternative payment methods.

### **Signing up for a Skrill account**

Before you can start accepting payments through Skrill, you need to open a free merchant account by completing the online application form [here](#).

Once your application has been approved you can configure your Skrill credentials in your Skrill merchant account and then copy them in your Shopify backend and start taking payments.

---

## 3. Installing and configuring Shopify

---

### Secret Word and API Password

It is mandatory to setup a secret word and API/MQI password for your Skrill merchant account before configuring the Skrill Shopify module. The secret word is used to authenticate the data sent back to your Shopify server after payment. You must obtain the IP address of your Shopify server to configure the API/MQI password. You can find this IP address by executing the following command from a command prompt:

```
ping <server domain name>
```

For example:

```
ping example.shopifyserver.com
```

Pinging example.shopifyserver.com [145.76.160.206] with 32 bytes of data:

Make a note of the set of numbers in the square brackets. This is the IP address. Now you have the IP address, you can setup the secret word and API/MQI password as follows:

1. Log in to your Skrill merchant account at [www.skrill.com](http://www.skrill.com)
2. Go to **Settings > Developer Settings (Figure 3-1)**
3. Check the **Enable service** checkboxes next to the API and MQI sections
4. For each section, specify the IP address(es) or IP address range of your Shopify server. This prevents payment or money transfer requests from other IP addresses if your secret word or API password is compromised. All requests from other IP addresses are denied. Access can be granted to:
  - A single IP address (e.g. 145.76.160.206 using the example above)
  - Multiple IP addresses, separated by space (e.g. 192.168.0.2 10.0.0.2)
  - A subnet in CIDR notation (e.g. 192.168.0.0/24)
5. Locate the Change API/MQI password section. Enter and confirm your API/MQI password
6. Locate the Create secret word section. Enter and confirm your secret word
7. Click **Save** to save the changes
8. Logout of your account

The screenshot displays the 'Manage your settings' page for the Skrill Shopify module. At the top, there are navigation tabs: 'Account Overview', 'All Transactions', 'Cards and Bank Accounts', and 'Skrill'. Below these, the 'Manage your settings' section is active, with sub-tabs for 'ACCOUNT SETTINGS', 'BUSINESS INFO', 'LIMITS & VERIFICATION', and 'DEVELOPER SETTINGS'. The 'DEVELOPER SETTINGS' tab is selected, showing three main sections:

- Automated Payment Interface (API):** Includes a checked 'Enable service' checkbox and a text input field for IP addresses containing '10.50.14.18'.
- Merchant Query Interface (MQI):** Includes a checked 'Enable service' checkbox and a text input field for IP addresses containing '10.50.14.18'.
- Change MQI/API password:** Includes a note that the password is required for API and MQI access, followed by two password input fields labeled 'Password' and 'Re-type password'.

Below these sections is the **Create secret word** section, which includes a note about the secret word's use and two input fields labeled 'Secret word' and 'Re-type secret word'. Each section has a purple 'Save' button at the bottom right.

**Figure 3-1: Configuring a Secret Word and API/MQI Password**

### Activate Skrill in Shopify

1. Login to your Shopify admin account
2. Choose **Settings** from bottom left
3. Go to **Payments**
4. Scroll down to **Alternative payment methods**
5. Click on **Choose Alternative payment**
6. Type Skrill in the search field
7. Click on **Skrill**
8. Fill in the **email** and **the secret word** registered in your Skrill account (**Figure 3-2**)
9. Click on **Save**

# Skrill

## About Skrill

Skrill is one of the largest online payment systems in the world and provides access to an international network with over 80 payment options in 200 countries.

---

## 4. Customer Experience

---

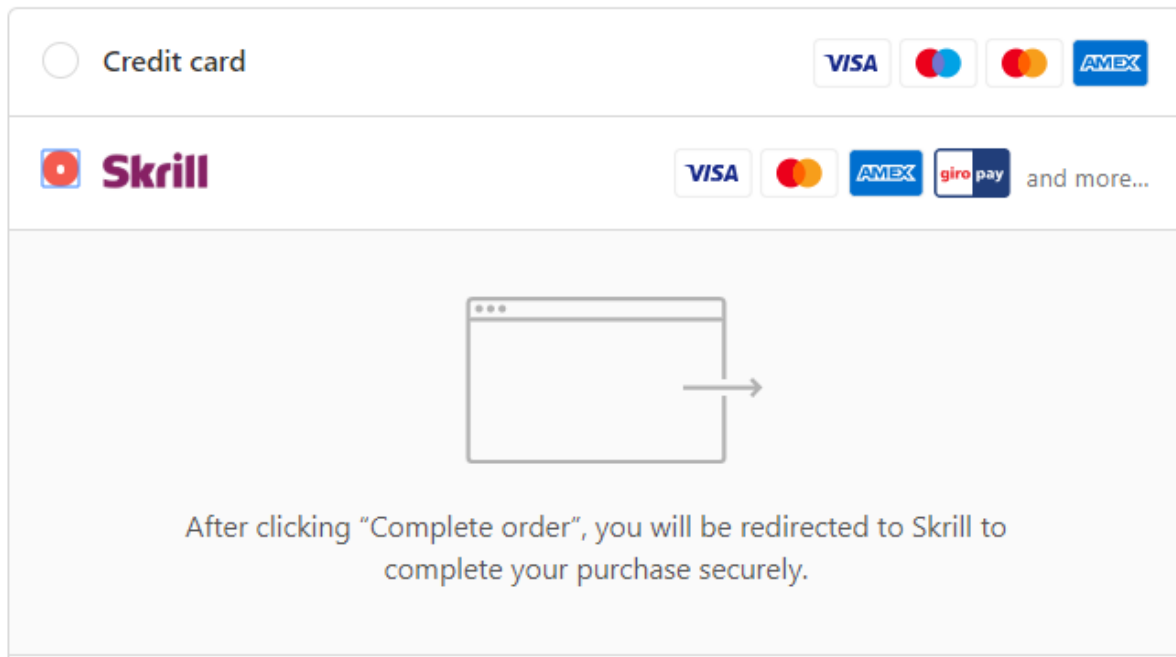

This section describes the customer's checkout experience when using the Skrill Shopify module.

**Note:** We only describe the Checkout process from the payment selection step onwards as the previous steps are unchanged.

---

The steps are as follows:

1. Click on Skrill

**Figure 4-1: Shopify Checkout Payment selection showing different payment methods**

2. Enter Payment details in the Skrill Payment Form

The image shows a mobile payment interface for Skrill. At the top, it displays 'English' and 'United Kingdom'. Below this, the amount '6.00 GBP' is shown next to an information icon, and the user's name 'dreshnikat' is displayed. A row of payment options includes 'Pay by Skrill', a card icon, 'RAPID', and 'NETELLER', with a plus sign for more options. The main form contains the following fields: 'Card number' (with a lock icon), 'Expiry date' (split into 'MM' and 'YY' boxes), 'Security code' (with a 'CVV' label and a card icon), and 'Cardholder name' (split into 'Customer' and 'Last name' boxes). A prominent blue 'PAY NOW' button is centered below the fields, with a 'Cancel' link underneath. At the bottom, there is a 'Norton SECURED' logo on the left and 'Powered by Skrill' on the right.

Figure 4-2: Enter Payment Details in the Skrill Payment Form

3. Click **Pay Now** to complete the payment. If all is correct, the payment form will display the following screen:

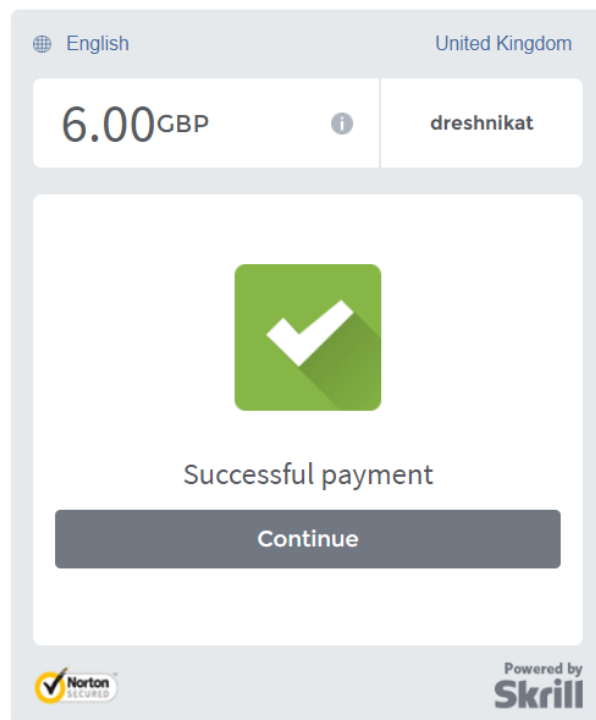

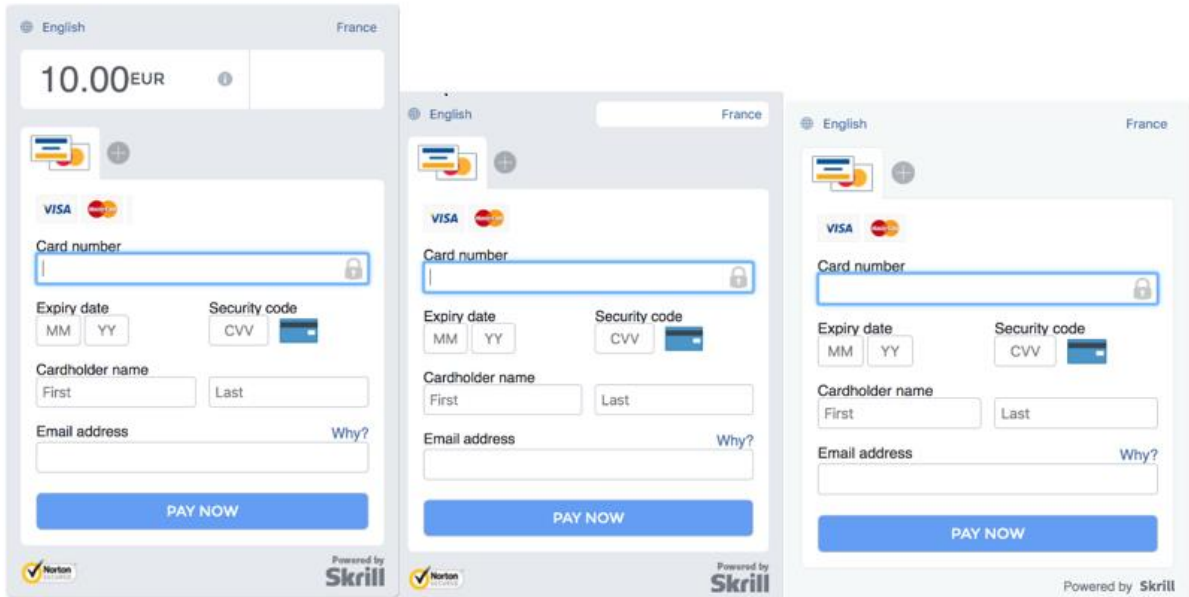

Figure 4-3: Successful Payment

### Removing or reducing the header and reducing the footer

You can request a version of the Skrill payment form without the Skrill header and amount fields. The security logo is also removed from the footer, to reduce its size. To enable this option, please contact Skrill Merchant Services and ask for the Reduced Header and Footer option. This option is shown in the screenshot below (The standard payment form is shown on the left and the reduced header and footer option on the right).

The image displays three side-by-side screenshots of the Skrill payment form, illustrating different configurations for the header and footer. All three forms are set to 'English' and 'France'.

- Left Screenshot (Standard):** Shows the full payment form with a header displaying '10.00 EUR' and a footer containing the Norton logo, 'Powered by Skrill', and a security logo.
- Middle Screenshot (Reduced Header and Footer):** Shows the payment form with a reduced header (no amount) and a reduced footer (no Norton logo or 'Powered by Skrill', but still includes the security logo).
- Right Screenshot (Reduced Header and Footer, No Security Logo):** Shows the payment form with a reduced header (no amount) and a reduced footer (no Norton logo, 'Powered by Skrill', or security logo).

Figure 4-4: Reduced Header and Footer Option

---

## 5. Testing

---

We provide test cards shown in the table below for use with test merchant accounts. When using these card numbers enter an expiry date in the future and a random CVV number.

**Table 5-1: Test Cards**

Brand	Card Number
MasterCard	5438311234567890
Visa	4000001234567890

Should you wish to test Skrill in DEMO shops please get in touch with Skrill support at [newbusiness@paysafe.com](mailto:newbusiness@paysafe.com), so we can provide you with access.
