2. INTRODUCTION

What is the Wix eCommerce platform?

The Wix eCommerce platform provides businesses with all the professional tools and services they need to sell online and in-store. It allows merchants to build their eCommerce business and sell on multiple sales channels, including web and mobile storefronts, social media channels, online marketplaces, and physical retail locations, as well as manage and track everything with an advanced, integrated dashboard: from inventory, orders and fulfillment to payment and brand marketing.

Skrill’s online payment solution called Quick Checkout was fully integrated into Wix. Connecting and configuring the Skrill Payment Solution module provides a simple, secure, and convenient option to accept payments with Skrill on the Wix eCommerce platform.

Skrill customers using Wix have access to a wide range of card and alternative payment methods.

Signing up for a Skrill account
Before you can start accepting payments through Skrill, you need to open a free merchant account by completing the online application form here.

Once your application has been approved you can configure your Skrill credentials in your Skrill merchant account. Please follow the below steps:

a. Sign in to your Skrill account once verified and go to “Settings” >> “Developer settings” >> “API / MQI / GSR / CVT Management” to create a Secret Word and API password.

b. Insert them into the form along with your Merchant ID and Merchant E-Mail Address.

c. Click the Connect My Account button on Wix dashboard. You will be then connected, and ready to accept payments with Skrill.

3. CONNECTING AND CONFIGURING WIX

Secret Word and API Password
It is mandatory to setup a secret word and API/MQI password for your Skrill merchant account before configuring the Skrill module. The secret word is used to authenticate the data sent back to your Wix server after payment. You must obtain the IP address of your Wix server to configure the API/MQI password. You can find this IP address by executing the following command from a command prompt:

ping <server domain name>

For example:

ping example.wixserver.com
Pinging example.wixserver.com [145.76.160.206] with 32 bytes of data:
Make a note of the set of numbers in the square brackets. This is the IP address. Now you have the IP address. You can setup the secret word and API/MQI password as follows:

1. Log in to your Skrill merchant account at www.skrill.com.
2. Go to **Settings >> Developer settings >> API / MQI / GSR / CVT Management** (Figure 3-1).
3. Set API / MQI Password using the toggle, type and confirm by clicking Save.
4. For each section, specify the IP address(es) or IP address range of your Wix server. This prevents payment or money transfer requests from other IP addresses if your secret word or API password is compromised. All requests from other IP addresses are denied. Access can be granted to:
   - A single IP address (e.g., 145.76.160.206 using the example above).
   - Multiple IP addresses, separated by space (e.g., 192.168.0.2 10.0.0.2).
   - A subnet in CIDR notation (e.g., 192.168.0.0/24).
5. Set Secret Word using the toggle and click **Save** to confirm.
   **Note:** Your Secret Word must contain at least: 8 characters, 1 uppercase letter, 1 lowercase letter, 1 number.
Figure 3-1: Configuring a Secret Word and API/MQI Password

Configure Skrill on your Wix dashboard
The next stage is to configure the Skrill module. The steps are as follows:

1. Go to your Wix dashboard on desktop.
2. Select Settings.
3. Go to Accept Payments.
4. Next to Skrill, click Manage.
5. Insert your Skrill credentials (Figure 3-2).

**Figure 3-2: Skrill Settings with example values in Wix dashboard**

**Configure Skrill Settings**

Configure the Skrill Settings as follows:

1. Enter your Skrill Merchant account ID in the Merchant ID field. This is the Customer ID of your merchant account.
2. Enter the processing email your Skrill merchant account.
3. Enter the API password and Secret word that you set up in the previous section.
### Table 3-1: Skrill Settings

### 4. CUSTOMER EXPERIENCE

This section describes the customer’s checkout experience when using the Skrill module.

**Note:** We only describe the Checkout process from the payment selection step onwards as the previous steps are unchanged.

The steps are as follows:

1. Click a payment method from the list of available payment methods (this list depends on the customer’s country, the payment options configured for your Skrill account, and the payment options configured in Skrill module).

2. Enter Payment details in the Skrill Payment Form.

3. Payment

![Figure 4-1: Checkout payment selection showing different payment methods](image-url)
4. Click **Pay Now** to complete the payment. If all is correct, the payment form will display the following screen:

![Payment Successful]

**Figure 4-3: Successful Payment**

5. Click **Continue** to return to the Wix Order Confirmation screen.
Thank you for your order, Customer Last name.

You'll receive an email confirmation soon.

Total: €20.00

Figure 4-4: Order Confirmation in Checkout
5. REFUND INFORMATION

To complete refund, please login to your Skrill merchant account and follow the below steps:

1. Click All transactions.
2. Find the transaction which should be refunded.
3. Click partial refund from right hand side column.
4. Type the amount which should be refunded (full/ partial refund).
5. Click confirm return.

This will ensure money are returned to the customer, however, to update your Wix dashboard, please follow the below steps:

1. Go to Orders in the Wix dashboard.
2. Find the customer's order you would need to refund.

3. Click on the order you would like to update.
